*Working well under pressure!*

#### Warranty Information

When you choose Cam Spray for your high-pressure solutions, you're choosing 50 years of manufacturing experience and solid relationships built over three generations. Our products are built in the U.S.A using carefully selected components and hand-tested before delivery to ensure your total satisfaction. From our headquarters in Iowa Falls, Iowa, our team keeps our core values of family, faith, and hard work at the center of everything we do.

We take great pride in our craftsmanship and stand by all our pressure washers, drain and sewer jettors, and accessories. That's why we offer a range of replacement parts and provide this warranty supported through us as the manufacturer and assembler of the final product. Components like engines and pumps are also covered by the warranty of the manufacturer who built the component.

Below, you will find the statement of warranty for Cam Spray pressure washers and sewer and drain jettors.

#### Statement of Warranty

The manufacturer of this product offers a limited warranty and agrees to repair or replace designated parts that prove defective within the warranty period listed in the chart below. Specific limitations and exclusions apply. This warranty covers defects in material and workmanship and not failure due to normal wear, depreciation, abuse, accidental damage, negligence, improper use, maintenance, or storage. To make claims under the terms of the warranty, all parts said to be defective must be returned to a designated Warranty Service Center for warranty inspection. The judgements and decisions of the factory-authorized personnel concerning the validity of warranty claims are final.

Many components are covered by warranties given by their respective manufacturers. These warranties pass through to the end user. As a factory-authorized and trained warranty service center, the factory will honor the terms of all component warranties and satisfy claims of the appropriate warranty provisions.

Normal wear items include but are not limited to: hoses, nozzles, filter, pump valves, pump seals, and are not covered by this warranty.

This warranty is in lieu of all other warranties, express or implied, including without limitation any warranties of merchantability or fitness for a particular purpose and all such warranties are hereby disclaimed and excluded by the Manufacturer. The Manufacturer's warranty obligation is limited to repair and replacement of defective products as provided herein. The Manufacturer shall not be liable for any further loss, damages, or expenses, including damages from shipping, accident, abuse, acts of God, misuse, or neglect. Neither is damage from repairs using parts not purchased from the Manufacturer or alterations performed by non-factory authorized personnel. Failure to install and operate equipment according to the guidelines put forth in the instruction manual shall void warranty.
